Lucknow.

Subject: Replies of Information Requirement/Discrepancies in ARR/MYT Petition for FY 2017-18 to FY2019-20 submitted by UPPCL/State DisComs (namely DVVNL, PVVNL, MVVNL, PuVVNL & KESCO).

Sir,

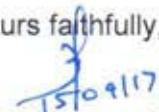

Kindly refer to admittance letter no. UPERC/Secy/D(Tariff)/17-259 dated 04.09.2017 wherein Hon'ble Commission has directed licensees to re-work/re-visit the Projected Power Purchase Cost for MYT period to bring it down to reasonable level.

In line of above direction, licensee is submitting revised Power Purchase Plan for MYT period, revised consumer addition targets along with the replies of deficiency note sent via e-mail dated 30.08.2017.

Submitted for the consideration of the Hon'ble Commission.

Encl: As Above (5 copies+CD).

Yours faithfully,

(Niraj Agrawal)
Chief Engineer(RAU)

Replies to the Queries of the Hon'ble Commission in regard to the ARR / MYT Petition for the Control Period i.e. FY 2017-18 to FY 2019-20

- The Petitioner has not submitted the details of No. of Sub – station / Distribution Sub - station (11 / 0.4 kV) i.e. Distribution Transformer to compute O & M Expenses for FY 2017-18 & onwards as per the Regulations. This would further impact the whole GFA and ARR. It is mandatory for the Petitioner to submit the same.

Licensee's Reply

The Petitioner humbly submits that it has already submitted the details of No. of distribution sub-stations (33 KV) for the desired period and further the details of distribution sub- stations (11 / 0.4 kV) or Distribution Transformer (11 / 0.4 kV) for the period FY 14-15 to FY 2019-20 were provided as per Tariff Formats issued by the Hon'ble Commission. As desired by the Hon'ble Commission, the requisite details for earlier years has already been submitted to the Hon'ble Commission via email on 04th September, 2017, further the same is also submitted in hard copy along with the revised O&M Calculations, annexed with this reply marked as Annexure-1.

- The % Allocation of central plants for Uttar Pradesh as considered by the Petitioner is different from the allocations as accorded by NRPC vide Letter No: NRPC/ OPR/ 103/ 02/ 2017/8173-8198 dated 19.7.2017. Further, it has been observed that the annual fixed charges and the auxiliary consumption considered by the Petitioner for the central generating stations is not in line with the CERC orders for the tariff period FY 2014-19. The same was discussed and the Petitioner must submit the revised Power Purchase Cost and ACOS for FY 2017-18, FY 2018-19 and FY 2019-20 accordingly.

Licensee's Reply

The Petitioner hereby submits it has revised its power purchase plan based on the directions issued by the Hon'ble Commission and has further considered the average variable charges for FY 2017-18 on the basis of the average variable power purchase cost for the period April to June, 2017. The revised Power

02

Purchase Plan and ARR Summary for FY 2017-18, FY 2018-19 and FY 2019-20 is annexed herewith with this reply marked as Annexure-2.

- The variable cost per unit and fixed cost per unit for the state generating station of UPRVNL has not been considered as per the UPERC Order dated 18.1.2017 in Petition No. 1117 of 2016 & 1126 of 2016. The Petitioner submitted that they have taken the actual figures of FY 2016-17 and escalated the same for calculation of fixed and variable cost. The Petitioner urged that the same may be considered by the Commission for the MYT period so that the impact of FPPCA can be mitigated / minimised. However, the Petitioner needs to submit the details of the actual Power Purchase cost (Station / Source wise break - up of fixed and variable costs and Total Cost) for the years FY 2014-15, FY 2015-16 in the same format as they have submitted the data for FY 2016-17. Details of Power Purchase Cost (Station / Source wise break - up of fixed and variable costs and Total Cost) shall be submitted on consolidated monthly basis & consolidated yearly basis. Further the Petitioner to provide the details of Generating Station / Source – wise actual Power Purchase from April'2017 to July'2017 must also be submitted.

The above details are required for proper estimation of Power Purchase cost for FY 2017-18 & onwards so that the impact of FPPCA is minimized. Further the Petitioner in its reply said that the 4% escalation for the fixed and variable costs for the generating stations has been considered based on the past year average escalation trends, the Petitioner must submit the past trends calculated by it.

Licensee's Reply

The Petitioner hereby submits that it has considered the Fixed Cost of the State Generating Stations as per the UPERC Order dated 18.1.2017 and further the variable cost per unit was considered by escalating the actual variable cost per unit for FY 2016-17. Further in line with the last discussion held with the Hon'ble Commission, the Petitioner has considered the average variable cost for the period April to June, 2017 and escalated the same accordingly. Further, the Petitioner in line with the Commission's directive is hereby submitting the power purchase data compiled for FY 2014-15 & 2015-16 (data for 2016-17 has already been submitted) for kind reference of the Hon'ble Commission, which depicts the escalation factors for each of the generating stations. The same is attached herewith marked as Annexure-3. Further the details of Power Purchase Cost

03

(Station / Source wise break - up of fixed and variable costs and Total Cost) of Generating Station / Source – wise actual Power Purchase from April'2017 to July'2017 is under preparation and will be submitted shortly along with the Quarterly Incremental Cost submission.

A. Deficiencies / Queries that are yet to be answered:

- The Petitioner has submitted that a subsidy of Rs. 5500 crore for FY2017-18 and Fy 2018-19 and Rs. 3500 crore for FY 2019-20 has been committed by GoUP. The details are as under:

Particulars	2017-18	2018-19	2019-20
Revenue Subsidy	4260.00	4260.00	2260.00
Agriculture Subsidy	240.00	240.00	240.00
Subsidy against ED	1000.00	1000.00	1000.00
Total	5,500.00	5,500.00	3,500.00

The supporting document with respect to the subsidy committed by GoUP for the FY 2017-18 has been submitted by the Petitioner. However similar documents for the FY 2018-19 and FY 2019-20 are yet to be submitted. The Petitioner must submit the document for the FY 2018-19 and FY 2019-20 as submitted for FY 2017-18.

It may be noted that as per the Regulations, the Commission has to give different tariffs. In one subsidy will be considered while in the other tariff will be without subsidy. The Petitioner has submitted the tariff with subsidy, however the tariff without subsidy has been taken as ACOS. Hence, the Petitioner may provide the break-up of allocation of subsidy to the specified category and Sub-category of consumers. This is required for analysis to check adequacy of present subsidy and computation of additional subsidy requirement (if any) etc.

Licensee's Reply

The Petitioner humbly submits that it has already submitted the copy of the UP Govt. State Budget for FY 2017-18 depicting the approved subsidy for that year, however since the State Govt. budget for FY 2018-19 and FY 2019-20 is not available as of now, the Petitioner for the purpose of the MYT Petition has considered the overall subsidy nos for FY 2018-19 and 2019-20 based on the projections made in the 'UDAY' scheme. In addition the break-up of allocation of

Page | 3

W.M.

Chief Engineer (R.A.U.)
UPPCL, Shakti Bhawan Ext.
14, Ashok Marg, Lucknow - - -

subsidy to the specified category and Sub-category of consumers for FY 2017-18 is already provided in the state budget. Further the consumer category wise allocation for subsidy for FY 2018-19 has been considered same as taken for FY 2017-18 and for 2019-20, the total subsidy projected has been allocated among the specified categories as summarized below:

Particulars	2017-18	2018-19	2019-20
Revenue Subsidy – LMV 1 (Rural Consumers)	3760.00	3760.00	2260.00
Agriculture Subsidy– LMV 5 (Rural Agriculture Consumers)	240.00	240.00	240.00
Subsidy against ED	1500.00	1500.00	1000.00
Total	5,500.00	5,500.00	3,500.00

- In the matter of True- up of FY 2014-15, Consumer Category and Sub-category wise billing determinants along with revenue receipt details must be provided for analysis and subsequent approvals.

Licensee's Reply

The Petitioner humbly submits that the same has already been provided to the Hon'ble Commission in the Load Forecast Model and in also in reply to the 1st Deficiency Note, however the same is once again annexed herewith the reply for the perusal of the Hon'ble Commission, attached herewith marked as "Annexure-4."

- As you are aware, as per Regulations, the employee cost for the MYT Period i.e. FY 2017-18 to FY 2019-20 will be computed through a clear and documented normative methodology which does not take care of the sanctioned v/s filled posts, or to say, the employee cost for the MYT period is projected on the basis of historical data of actually incurred cost and not what would have incurred as per the sanctioned post at that time.

Further, we find that there is no scope of approving additional employee cost as per the proviso to Regulation 25.1 of MYT Regulations 2014. Under the same proviso, the Petitioner has already claimed the 7th Pay Commission arrears as one-time expenses. The Petitioner must provide Discom-wise the total no of sanctioned posts and filled post for the year FY 2010-11 to FY 2016-17 along with

Page | 4

Lokesh

Chief Engineer (R.A.U.)
UPPCL, Shakti Bhawan Ext.
14, Ashok Marg, Lucknow

the actual expenditure which the licensee has incurred and would have incurred if the posts were filled. The Petitioner must also quantitatively / numerically justify its claim based on the findings of the Benchmarking studies. All this is required to analyse the additional claim made by the Petitioner for employee costs.

Licensee's Reply

The Petitioner humbly submits that it has claimed the additional employee cost for the MYT period based on the difference in the sanctioned and actual no. of employees for FY 2014-15 (being the latest financial year, for which the audited accounts are available). The Petitioner has already provided the data of actual no. of employees deployed for the period FY 2010-11 to FY 2016-17, as a part of the O&M calculations submitted earlier, further in light with the recent benchmarking studies conducted by the Discoms and with extensive planning for improving the electricity supply position in the State, the Govt. of Uttar Pradesh, has already initiated the process of filling the vacant posts and is also increasing the sanctioned posts for future years, in order to have adequate in-house strength to ensure the quality and reliable supply to all the consumers of the State.

- Vetting of Rate Schedule for FY 2017-18 & onwards.

In an exercise to bring in more clarity & easy understanding of Clauses in the Existing Rate Schedule for various stakeholders and also considering the practices which are being followed by the Discoms in the State of Uttar Pradesh and to further remove the redundancies & infirmities in the Rate Schedule, the Revised Rate Schedule has been prepared after several meeting and detailed deliberations with the personnel of UPPCL / RAU / Discoms. The Revised Rate Schedule have been enclosed as Annexure-2 in track change mode. The Petitioner should review the Rate Schedule line by line and submit comments regarding the same along with updated rates proposed. (Kindly note the rates are not revised yet in this rate schedule)

The Petitioner must make the submission immediately in the above matter.

The Petitioner humbly submits that most of points proposed by the Hon'ble Commission in regard to the Tariff Structure have already considered and included in the Revised Tariff Structure filed for the perusal of the Hon'ble Commission. The comments on the balance points require further discussion with the Commission and will be submitted after this discussion as early as possible.

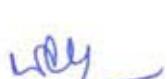

> Free electricity connection to the poor families of Urban Area:

In reference to the UPPCL letter no. 1331 dated June 22, 2017 and Govt. of U.P. letter no- 1371/24-1-17-1371/2017 dated June 22, 2017 in the matter of free electricity connection to the poor families of Urban Area where the proposal of the loan amounting Rs. 62.06 Crore in ratio of 10: 90 (equity: loan) is given by M/S PFC Ltd for five year that includes implementation period of 18-month moratorium period of 6 months and repayment period of 3 years. The Commission has following observation in this regard:

- 1) Is this in compliance to the Cost data book approved by the Commission?
- 2) The interest on loan taken will be borne by other consumers (part of ARR). Further, the cost associated (principal amount of loan/cost of meter etc.) will be passed in ARR as depreciation, ultimately burdening the other consumers.
- 3) It is proposed that such type of scheme may be funded by Govt. of Uttar Pradesh through subsidy so that other consumers do not bear the expense.
- 4) The Petitioner is required to submit their comments on the above observations.

Licensee's Reply

The Petitioner humbly submits that in the present State Govt. budget there is no subsidy provision for the aforementioned scheme. Further it is hereby stated that the scheme is designed for the poor families and in line with the National Tariff Policy, 2016, the Distribution Licensee is allowed to cross subsidize its consumers within the range of (+/-)20%, thus the licensee plans to recover the

Page | 6

Uttar Pradesh
UPPCL, Shakti Bhawan Ext.
14, Ashok Marg, Lucknow

cost of the same from other high-end consumers, binding with the provisions of the National Tariff Policy, 2016.

- Release of electricity connection of IT / ITES units under HV-2 category, the Petitioner has submitted that it is pursuing the matter with GoUP, to expedite the process and would submit the details to the Commission accordingly.

Licensee's Reply

The Petitioner humbly submits that the said matter is still under consideration with GoUP and any progress on the same would be reported to the Hon'ble Commission as and when received.

- Introduction of two part Tariff in 'Others' sub-category in metered LMV-9 category consumers, the Petitioner must make the submission immediately, as it required for determination of ARR / Tariff for FY 2017-18.

Licensee's Reply

The Petitioner humbly submits that is accepts the recommendation of the Hon'ble Commission in regard with the Introduction of two part Tariff in 'Others' sub-category for metered LMV-9 category consumers.

- Existing mechanism of subsidy being provided to the subsidized categories –

In recent times, there has been great focus on digital payments and Direct Benefit Transfer in regards to Govt. Subsidy.

In line to the above, the following dispensation could be put up in place in the State of Uttar Pradesh in the coming Tariff Order:

Quote

The Commission is concerned about the existing mechanism of subsidy being provided to the subsidized categories (i.e. Rural Domestic and Private Tube Wells for Irrigation Purpose) as the current mechanism is not transparent and does not hold any accountability.

Page | 7

Chief Engineer
UPPCL, Shakti Bhawan, 1st
Floor, 14, Ashok Marg, Lucknow

Taking the above into consideration, the Commission directs the Licensees to introduce the mechanism of transferring subsidy by Direct Benefit Transfer Scheme to the subsidized categories (i.e. Rural Domestic and Private Tube Wells for Irrigation Purpose) in consultation with GoUP. The required subsidy amount for subsidized category of consumers must be then transferred to their Aadhar linked bank account (direct benefit transfer) as already implemented by the Central Government for Domestic LPG etc. Such direct transfer of subsidy shall be more efficient, transparent and will ensure accountability.

Further, the Licensees are directed to chalk out the finer details of the above implementation and issue them in the form of Office Order(s) which should be available at all the offices / billing counters & websites of the Licensees.

Unquote

The Petitioner must make the submission immediately in the above matter.

Licensee's Reply

It is humbly submits that the said matter is under consideration and the Petitioner has already initiated the process of pursuing the same with the State Govt. However, it would be imperative to mention, that transferring subsidy by Direct Benefit Transfer Scheme to the subsidized categories is a major policy decision to be taken considering all aspects related to adequate system development. The study of other states is also required to take advantage of their experience and action is being initiated in this direction.

- Rebate on Payment on or before due date & Scheme for Advance Deposit for Future Monthly Energy Bills - To bring in more simplicity and uniformity, a uniform rate of 1 % p.m. or 12% p.a. shall be made applicable for the below mentioned provisions:

Rebate on Payment on or before due date.

Scheme for Advance Deposit for Future Monthly Energy Bills.

Lalit

Surcharge / Penalty for Delayed Payment.

The Petitioner must make the submission immediately in the above matter, as it required for determination of ARR / Tariff for FY 2017-18.

Licensee's Reply

In regard to the Hon'ble Commission's above proposal, the Petitioner humbly submits that the objective of the Licensee's Tariff Proposal in proposing different rates for distinct events was to motivate the consumers for timely and advance payment of and their electricity dues, thus increasing the collection efficiency of the Discom, further higher surcharge / penalty on Delayed Payment would discourage the consumer from untimely deposit of electricity dues. In this regard, it is requested to kindly consider the same in line with the comments to be made by the licensee in respect to the changes proposed in the Tariff Rate Schedule.

> Regulatory Surcharge Computation

The Petitioner must submit Consumer Category and Sub-category wise details of the Regulatory accounts for Regulatory Surcharge-1 & Regulatory Surcharge-2 separately, since the inception.

Further, an in-house attempt has been made to generate / calculate the details of the Regulatory accounts for Regulatory Surcharge-1 & Regulatory Surcharge-2 separately, since the inception. The Petitioner must make the submission immediately in the above matter, as it required for determination of ARR / Tariff for FY 2017-18.

Licensee's Reply

The Petitioner humbly submits that the Discom wise details of actual Regulatory Surcharge-1 & Regulatory Surcharge-2 billed and collected separately, for the period FY 2013-14 to 2015-16 is attached herewith marked as Annexure-5 for kind perusal of the Hon'ble Commission. Further the same information for FY 2016-17 has already been submitted to the Hon'ble Commission in previous replies.

- Renting House / Accommodation through E – Platform. The Petitioner must make the submission immediately in the above matter.

Licensee's Reply

The Petitioner humbly submits that the e-platforms may at any time modify their policy as per their business interests. Thus decision whether the consumers are liable to pay electricity charges on domestic or commercial tariff category can only be taken by the concerned billing unit, based on the language of each of the individual contracts /agreements executed through e-platforms. Any new e-platform may have some difference in the policy. Thus any standard category cannot be decided for e-platforms consumers and the same has to be dealt on case to case basis.
